

SYBIZ VISION/RMS LINK

Microsoft Retail Management System is a powerful, easy-to-use POS Solution for one to many stores.

The RMS/Vision link provides seamless integration between the Microsoft Retail Management System and Sybiz Vision.

Features include the following:

- Synchronisation of Customers between Vision and RMS.
- Synchronisation of Products between Vision and RMS (Including Stock Figures).
- Invoices, Credits and Receipts are uploaded from RMS to Vision using Sybiz's inbuilt Autoload functionality.
- Can be scheduled to run at anytime.

The following are benefits RMS has over other POS's:

- Supports SQL Server and MSDE.
- OLE Pos (Device independent interface into POS to control Docket Printers, Pole Displays, Customer Displays, Cash Draws, Paper Cutters, Docket Printers, Card Readers etc).
- Gift Voucher Validation.
- Loyalty Cards.
- Fully integrated EFTPOS.
- Offline databases (allows automatic updates at certain times).
- User Definable touch screen interface.
- Highly configurable Back Office manager.
- Ability to sell stock by Colour and Size
- Staff and Rep code Sales analysis.

The screenshot shows a 'Configuration' dialog box with the following fields and options:
